Any dishonored checks will be considered as a violation of the permit and will be an automatic one year suspension.

NO. _____

DEPARTMENT OF TRANSPORTATION ENCROACHMENT PERMIT GENERAL CONDITIONS GOVERNING THE CONDUCT AND WORKMANSHIP OF CHAIN INSTALLERS

DATE _____

In accordance with Section 670 of the Streets and Highways Code, permission is hereby granted to install and remove tire chains upon motor vehicles for compensation within State highway right of way in established chain installing areas when and where the use of chains is required by signs controlled by the Department of Transportation, under the following terms and conditions relating to the safe and orderly movement of traffic which the Department finds necessary for the smooth and safe operation of the highways. The permittee shall, in addition to conditions stated within this Permit and Section 670 of the Streets and Highways Code, conform to all other applicable State and local laws. If the county or other political subdivision within which the permittee intends to install chains requires the permittee to have a business license in order to collect fees for doing this work, such a business license shall be obtained by the permittee and the license must be presented before this Encroachment Permit will become valid and can be used. This Permit may be suspended or revoked as provided in these General Conditions at any time by personnel of the Department of Transportation or California Highway Patrol. This Permit and the accompanying identification bib shall be surrendered upon demand by the Department of Transportation or the California Highway Patrol.

Prior to a permit being issued, all chain installers must attend a chain installer orientation, pass a written test, and demonstrate knowledge of snow tire identification and proficiency in tire chain installation.

The number of permits available for each chaining area is limited. In issuing such permits, first consideration will be given to applicants who held permits during the previous winter, providing their permits were not suspended or revoked during the previous winter and they were issued two or less warnings.

Penalties noted in these General Conditions are minimums. More severe penalties may be imposed for any infraction of these General Conditions if warranted by circumstances or by permittee conduct.

Any suspension issued near the end of a snow season, which in the opinion of the Permit Engineer will be ineffective, may be applied to the following season if so stated in the original suspension letter sent to the permittee.

Any appeal of punitive actions administered in accordance with these General Conditions shall be submitted within 48 hours, excluding weekends and holidays, to the Permit Engineer in the Department of Transportation District where the permit was issued. A decision will be rendered within five working days. The Permit Engineer's decision may be appealed in writing within 72 hours, excluding weekends and holidays, to the District Director of the Department of Transportation District in which the permit was issued. The District Director's decision shall be rendered within ten working days and this decision is final. There is no further administrative

Permit fees paid the Department of Transportation are nonrefundable.

THIS PERMIT EXPIRES JULY 1, 1997.
